Classic Car Profiles

'Cars in Profile' was another series from Profile Publications Ltd in the early 1970s, with Anthony Harding as series editor. 12 seem to have been published, mostly of racing cars with plans in 1973 to produce up to number 24. They were issued separately, and bound, with the same continuous pagination. 'Collection 1 Cars in Profile' contained Cars in Profile 1-6; 'Collection 2 Cars in Profile' contained Cars in Profile 7-12.

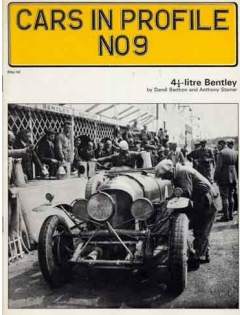

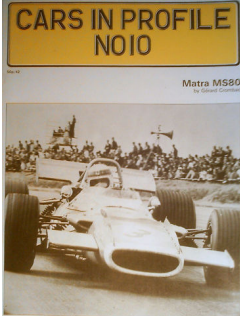

In the copies I have, the following were advertised, and additional information has been gleaned from the Internet. It does not look as if Profiles 13 to 24 were published.
